

Career Pathing from BAI

Put Your Employees on the Path to Success

We understand that attracting and retaining talent is an ongoing challenge for financial services organizations. Career Pathing by BAI, available in the BAI Learning Manager enables employees and managers to establish clear career advancement goals and identify the skills, knowledge and experience required for targeted career development.

Engage, Retain and Grow

- + Train your leaders for tomorrow.
- + Increase employee engagement.
- + Provide the skills needed to achieve career goals.
- + Create an internal talent marketplace.

Step into Career Pathing

Career Pathing by BAI, combined with BAI's flexible courseware, is a powerful solution that enables training administrators, managers and students to tailor training based on individual and organizational needs.

Enrollment is easy – students can enroll themselves or managers can assign.

Each Career Path has its own unique set of associated skills.

Track status on an individual employee basis.

Integrates Professional Development and Compliance training seamlessly.

Simplifies the process of defining goals and growth objectives.

With Career Pathing, financial services organizations can address the growing need to provide professional and personal development opportunities to their employees, along with a clear path to success.

Contact your BAI representative to discover how to provide your learners with the confidence to manage their career goals effectively and efficiently with Career Pathing in the BAI Learning Manager.
